FRIEDHELM LOH GROUP

Why Choose Rittal?

The Rittal TS 8 is the premier modular enclosure available in the world today. Engineered with the challenges of real-world applications in mind, the TS 8 can protect critical equipments in even the most demanding environments.

Patented 16-fold frame profile increases strength and maximizes flexibility

- Engineered to handle large load capacities of up to 1,400 kgs.
- Frame-based, modular design-exterior surfaces can be easily dismantled for modifications, saving time and money.

Depth-adjustable, zinc-plated mounting panel

- Full-sized for increased mounting surface area-up to 30% more than those typically found in unibody enclosures.
- Easily slides in and out for greater usability.
- Instant grounding without scraping paint, saves time and money.
- Enables more components to fit inside a smaller enclosure reducing cabinet footprints and preserving valuable floor space.

Doors with multi-point, captive hinges

- Can hold up to 90 kg and be dismantled in as little as 30 seconds which is 98% faster than piano-hinged doors.

Seamless foamed-in-place gasket

- Provides tight and secure seal against contaminants and ensures protection ratings.

Mid-level EMC shielding out of the box

- Standard side and rear wall brackets are ground-ready, eliminating the need for grounding straps.

Wide variety of accessories

- Readily configurable to meet your unique needs.

The strength and flexibility of the TS 8 comes from its robust 16-fold, tubular frame that features a 25 mm hole pattern that allows components and accessories to be mounted horizontally or vertically and can support loads of up to 1,400 kg. Combined with the zinc-plated mounting panel, the TS 8 provides 15% more interior mounting space than unibody, NEMA-style enclosures.

Rittal India Pvt. Ltd, an Indian subsidiary of Rittal GmbH & Co. KG, manufactures the world's leading industrial and IT enclosures, racks and accessories, including climate control and power management systems for industrial, data center, outdoor and hybrid applications. For more information about Rittal and its products, please visit www.rittal-india.com

Rittal Enclosures TS 8

The TS 8 Top Enclosure system platform is suitable for any application. Every enclosure is accessible from all sides, even for very specific tasks, and offers “Infinite Possibilities” when used in conjunction with the system accessories.

Enclosures can be bayed laterally in a row, top of each other as well as round the corner.

The patented frame-work, of exceptional stability, will support up to 1400 kg of static load.
The symmetrical structure with double mounting level offers flexibility for equipment installation.

The door has a 4-point locking system, providing perfect security and an even pressure on the seal.
The comfort handle offered as an option combines design and comfort in use.

Corrosion protection of the highest level: nano-ceramic preparation, dipcoat priming and textured powder coating.

Foamed-in PU door seal and protected from liquid deposits by a gutter integral to the frame.

Potential equalization automatic across assembly components. All panels are conductively connected to one another in standard enclosures.

Technical characteristics for standard sizes:

4 widths: 600, 800, 1000, 1200 mm
3 heights: 1800, 2000, 2200 mm
4 depths : 400, 500, 600, 800 mm
Optional sizes available on request.

Surface Finish:

Frame dip coat primed.
Door, roof, rear panel: dip coat primed, powder coated in textured RAL 7035 on the outside.
Mounting plate and gland plate:
Galvanized sheet steel.

Doors:

Hinged 130°, Optional 180°.

Protection category:

IP 55 – NEMA 12
IP 66 option available on request.

Material: Sheet steel, enclosure frame, roof, rear panel and gland plates: 1.5 mm, door: 2.0 mm, mounting plate: 3.0 mm.

Surface finish:

Enclosure frame: dipcoat primed.
Door, roof and rear panel: dipcoat-primed, powder-coated in textured RAL 7035 on the outside,
Mounting plate and gland plates: galvanized sheet steel.

Supply includes: Enclosure frame with door, mounting plate, gland plates, rear panel and roof plate.

Protection category: IP 55 to EN 60 529, complies with NEMA 12.

Approvals:

- UL • CSA • TÜV • Russian Maritime Register of Shipping
- TÜV Mark • Lloyds Register of Shipping • Bureau Veritas
- VDE • Germanischer Lloyd

Configuration details:

- 500 Enclosure frame, front door, rear bolted cover, roof plate with eyebolts, bottom cover with standard gland plate and one mounting plate.
- 501 Enclosure frame, front door, rear door, roof plate with eyebolts, bottom cover with standard gland plate and one mounting plate.
- 510 Enclosure frame, front door, rear bolted cover, roof plate with eyebolts, bottom cover with standard gland plate.
- 511 Enclosure frame, front door, rear door, roof plate with eyebolts, bottom cover with standard gland plate.
- 521 Enclosure frame, front door, rear door, roof plate with eyebolts, bottom cover with standard gland plate and two mounting plates.

Industrial Buyer's Guide

Rittal's comprehensive overview of industrial and climate control products and accessories.

Precision modifications to suit your needs

Rittal manufactures the most flexible standard lineup of modular freestanding, wall mount, junction box enclosures and accessories available in the world today - right off the shelf - in a wide variety of construction materials and protection ratings. If you require a customized product, you can choose to modify any of our standard products or start from scratch with a newly designed, comprehensive solution.

Rittal India manufacturing facility is an independent production and assembly operation located at Doddaballapur, that is dedicated solely to create customer-specific products. Quote-to-order, custom-engineered products including those with cutouts and special paint colors or finishes are evaluated on a case-by-case basis and we will be happy to provide you with an estimated production time for your specific need. Assembly and integration of Rittal parts into custom solutions can be completed and shipped in as little as 4 weeks.

Rittal India Pvt. Ltd, an Indian subsidiary of Rittal GmbH & Co. KG, manufactures the world's leading industrial and IT enclosures, racks and accessories, including climate control and power management systems for industrial, data center, outdoor and hybrid applications. For more information about Rittal and its products, please visit www.rittal-india.com
